SUMMARY

Experienced React Native and React.js Developer with hands-on full-stack development expertise. Skilled in building scalable mobile and web applications, application testing, debugging, deployment, and delivering high-performance solutions in Agile environments. Strong collaborator with the ability to work independently or within teams, in both remote and onsite environments.

EDUCATION

PES University, Bangalore, Karnataka
MCA (Masters of Computer Applications)

Oct 22 - July 24
CGPA- 8.2/10

Aryan College, Ajmer, Rajasthan
BCA (Bachelors of Computer Applications)

July 19 - May 22
CGPA- 7.7/10

PROFESSIONAL EXPERIENCE

Chemflo, Remote
Software Engineer

Jan 25 – Present

- Built 5+ web and mobile applications from scratch, including a complete CRM system using React.js and React Native.
- Collaborated with chemical companies to deliver responsive CRM solutions and mobile apps for field representatives.
- Converted Figma designs into responsive web applications with clean, user-friendly interfaces.
- Managed Play Store and App Store deployments, push notifications, file management, and manual testing for production apps.

Tigbar, Remote
React Native Developer

Feb 24 – Dec 24

- Worked on cross-platform app development using React Native, ensuring compatibility and smooth performance on both iOS and Android.
- Collaborated closely with teams to facilitate Agile ceremonies like sprint planning and stand-ups.
- Utilized Jira for sprint tracking and managing tasks across development cycles, ensuring timely delivery.
- Utilized Redux Toolkit for state management, enhancing app efficiency and maintainability.
- Collaborated with the team using GitHub for version control, ensuring seamless workflow and code integration.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C++

Frameworks/Technologies: React Native, React.js, Node.js, Express.js, MongoDB, Supabase, Firebase, Redux Toolkit, Tailwind CSS, Bootstrap, REST APIs, SQL

Developer Tools: Git, GitHub, VS Code, Postman, Figma, Jira, Android Studio, Xcode, Vercel

PROJECTS

Pulse Care

Developed a healthcare platform for seamless appointment management and patient-doctor interactions.

- Built responsive web interfaces using React.js with secure authentication and intuitive user experience.
- Implemented appointment booking, patient management, and REST API integration for efficient healthcare services.

Cadence - Interview Preparation Platform

Developed a comprehensive interview preparation platform for React Native

- Built an interactive roadmap covering React Native, React.js, Next.js, JavaScript, and 150+ DSA problems with curated learning resources.

- Implemented progress tracking, focus timer, dark mode, streak tracking, search, and quick access to LeetCode, NeetCode, and YouTube resources.

AI Skill Scan

Developed an AI-powered web application for automated resume analysis and skill gap identification.

- Built an intelligent resume scanning platform using React.js and Puter.js for real-time skill analysis.
- Implemented AI logic to determine whether a resume aligns with the job requirements.

All In One Donation

Developed an all-in-one donation app with a user-friendly interface and multi-donation support.

- Created a React Native app enabling donations of clothes, money, food, and books.
- Integrated MongoDB, Express.js, and Node.js for secure backend and user authentication.

Furniture E-commerce App

Developed a modern furniture shopping app with responsive UI and seamless shopping experience.

- Built a React Native application with product browsing, cart management, and intuitive navigation.
- Integrated backend APIs to provide real-time product listings and smooth purchasing flow.
